

CROWN TRADE GRIP EXTREME FAST DRYING PRIMER

Crown Trade Grip Extreme Primer is a rapid drying, adhesion promoting primer for interior and exterior use. It will isolate stains such as nicotine and tannins. It is also ideal for use over difficult substrates including glass, ceramic tiles, melamine, previously painted surfaces and chalky substrates, as well as most wood and non-ferrous metals.

Drying	Touch dry 1 hour. Recoatable after 1 hour.
Spreading/Coverage	Up to 14m ² / litre depending on surface texture and porosity
VOC Content	EU Limit for this product (cat A/g) 30g/l (2010) This product contains max 2g/l
Preparation	All surfaces must be clean, sound and dry before painting. Remove all loose and defective paint coatings. Surfaces contaminated with organic growths should be treated with a suitable Fungicidal Solution, used in accordance with the manufacturer's recommendations. Make good any surface defects using suitable filler, used in accordance with the manufacturer's recommendations. Rub down surfaces using a suitable abrasive material to provide a 'key' and to produce a smooth, sound surface. Remove all surface contamination, including dust deposits by washing and rinsing with clean water. Prime all bare, porous, powdery or repaired areas using the appropriate primer/sealer or diluted 'mist' coat and allow to fully dry before applying the finishing coats.
Application	Stir well before use. Apply one or two coats as required by brush or roller. When used as a stain block primer two coats are recommended. If Grip extreme is to be overcoated with a water-based finishing system on wood or metal substrates, a water-based undercoat must also be used. Note: A trial test area is recommended over severely stained or suspect surfaces.
Cleaning	Return surplus material to a container. Wash with clean water immediately after use
Health & Safety	Read label before use. Keep out of reach of children. If medical advice is needed, have product container or label at hand. Do not get in eyes, on skin, or on clothing. IF ON SKIN: Wash with plenty of soap and water. IF IN EYES: Remove contact lenses, if present and easy to do. Continue rinsing. Dispose of contents and container in accordance with all local, regional, national and international regulations. Contains 1,2-benzisothiazol-3(2H)-one. May produce an allergic reaction.
